STUDENT COUNSELLING SYSTEM

The intake for a given academic year for MBA is 120 students. The Counselling and Mentorship Programme for MBA students is a continuous process. 240 students (MBA I & II) are counselled every semester and as per the need felt either by the student or the Counsellor, as and when required.

The objective of the Counselling and mentoring activity is,

- faculty-student rapport building,
- getting to know the new students and helping them make sense of their new environment,
- monitoring the progress of the II year students,
- taking stock of the previous semester results of students,
- motivating students to learn, and develop their interactive skills and improve their employability,
- creating a congenial environment for learning and interaction.

Each faculty-member is assigned a group of students every year for Counselling from the first year of the programme, and this association of the group and the faculty-member continues till the student passes out of the MBA programme. The students go through the formal Counselling with the faculty-members assigned to them, but, the students are given the freedom to go for Counselling informally to any faculty-member who they wish to get counselled.

Two different Counselling Forms are used for MBA I and MBA II. Form 1 for MBA I consists of a student's basic information, his/her strengths, goals, problems faced while dealing with people etc, which is the focus of counselling.

Form 2 for MBA II consists of information regarding a student's semester wise performance, interviews he/she has appeared for, problems areas that need to be improved, if short-listed in any company etc, which is the focus of Counselling.

The Counselling-Mentoring activity helps the faculty-members to understand each student well, as information is exchanged amongst them, which improves their insight about the students. The bonds established with students through this activity extends beyond the academic sessions, and it is experienced by most faculty-members that, they counsel and mentor many students for years, when they become alumnis of the Institute.

Every faculty-member creates a Whatsapp Counselling group for the students they are Counselling and meetings are scheduled by the faculty-members through Whatsapp messages.
